WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Side boards (2): 1,200 x 150 x 9 mm.

End boards (2): 682 x 150 x 9 mm; they sit between the side boards (drawn: the left side board and the front board).

Hand slots are optional; seal all edges.

Holes, 6.5 mm, 15 mm up from the bottom edge, where the

brackets go: side boards at 200, 600 and 1,000 mm; end

boards 150 mm each side of centre.

Corner holes, 6.5 mm, at 50 and 100 mm up: 15 mm from each

end of the side boards, 11 mm from each end of the end boards.

The boards stand on the deck with their outer faces flush with its edges.

The left side board also carries the two flag pole clips

(position on CGM-DWG-109).

Check: each board stands square with the deck's edge.
